Re: Information Request, Reference Number: CAA-02-2015-1451

Dear Mr. Buettner:

By this letter and supporting attachments, Covanta Hudson Renewable Energy, LLC ("Covanta Hudson") provides its response to the referenced Clean Air Act Section 114 Information Request ("Information Request") received by Covanta Holding Corporation on November 18, 2014. This response only addresses Parts IIIA and C, because our review has not identified any projects as described in sections B2- B4 of the Information Request which meet criteria in Part III.B section 1.

As you may know, Covanta Hudson operated the Dutchess County Resource Recovery Facility ("Facility") until June 30, 2014. Our response to this Information Request therefore is limited to information that currently is available on the Covanta Holding Corporation corporate network. The Facility is owned by the Dutchess County Resource Recovery Agency. We understand that the current operator of the Facility is Wheelabrator Dutchess County LLC. Both the owner and current operator of the Facility should be consulted for additional information regarding current operations as well as operations during the period of time in which Covanta Hudson was Facility operator.

Covanta Hudson's response includes a self-explanatory "Response Summary" (Microsoft Excel spreadsheet) that also serves as an index to the documents and information provided today. The Response Summary together with all documents is provided on the enclosed USB Flash Drive in a searchable format. Also included on the USB Flash Drive is a copy of this letter and the Certification of Response executed as required by U.S. EPA. The original of the Certification of Response is also provided in hard-copy as an attachment to this letter.

Kindly note that today's response includes Confidential Business Information ("CBI") as defined in 5 U.S.C. 552(b)(4) and U.S. EPA's regulations at 40 C.F.R. Part 2 Subpart B. Documents
